

PEDAYAK

« HANDS-FREE » KAYAK WITH PEDALS AND PROPELLER, FAST, MANOEUVRING, VERSATILE.

By its design and features, it **completely renews the current practice of kayaking.**
Concentrated of innovations, it is the culmination of 10 years of Research & Development.

PEDAYAK is an elaborate version of a "sit-on-top" kayak.

While on a restricted space, it has the same systems of a real boat :

- **A high-performance propeller propulsion system, easy and powerful.**
- **A smooth and precise steering system with rudder and helm, monitored by a simple stick.**

Their combination (the rudder is located just behind the propeller) allows manoeuvrability and a surprising agility on this type of boat.

Features:

Self-draining
insubmersible
rotomoulded
polyethylene hull.
Length : 360 cm
Width : 73 cm
Height : 72 cm
Weight : 35 kg
Speed : 10 km/h

10 KEY ADVANTAGES :

- 50% faster than an equivalent regular kayak.
- Allows activities such as strolling, fishing, photography, video, phoning, binoculars, etc.
- Can beach (the propeller and rudder are protected), go into very shallow waters (35 cm draught), go backwards by retro-pedalling, turn on itself. Silent.
- Can possibly accommodate two additional light passengers, less than 40 kg each.
- Stable and unsinkable.
- Very good behaviour at sea.
- Can be equipped for fishing with fishing rod holders, additional pockets, sounder.
- Storage compartments for GPS, bottle and cans, pockets, front and rear storage bins.
- Accessible to disabled people.
- In **PEDAYAK DUO** version, it can be used in catamaran, with an intermediate removable structure, allowing sunbathing, taking children, or bringing diving or bivouac equipments, etc.
